AGM 2021 – Clubhouse Report – 2020/21

As the clubhouse is now nearly 25 years old there is inevitably quite a lot of significant work having to be done. This year the following works have been carried out:

- the soffits and fascias below the balconies were replaced together with a number of missing/broken roof tiles
- repairs to the perimeter of the balconies and hopefully there will be no need to renew the waterproof covering below the balcony tiles within the immediate future
- repairs were also carried out to the perimeter of the asphalt flat roof above the main club room
- external power points have been installed which helps when having outside events.
- there has been ongoing general maintenance e.g. gutter repairs, lighting replacement, etc.
- The fire extinguishers have been upgraded to meet current fire regulations.

Volunteers did an excellent job redecorating changing rooms, toilets and the main lounge – thank you to all.

A special vote of thanks to Andrew Fergusson for the refurbishment of the kitchen.

The weekly cleaning contract has recommenced after being stopped during covid when we were not in the clubhouse. Please note that captains are asked to try and ensure that the toilets are kept clean and tidy:

- spare toilet rolls/paper towels are stored in the room next to the gents' toilet on the first floor and

- in each cloakroom a key is on a hook on the wall to enable the towel holders/toilet roll holders to be opened.

When funds are available, consideration will have to be given to renewing the flooring to the entrance hall and ground floor gents' toilet.

Over the next several weeks, we will be improving the signage, banners and notice boards both outside and inside the clubhouse including at the entrance to the school, on the pitch fencing, on the clubhouse exterior walls and in the entrance/lobby area of the clubhouse.

Many thanks to Melinda Rock and Cathy Sanderson who are researching, planning and designing the new signage.

We are likely to need a few hands to help install and hang some of what is produced.
